Note 1 — Organization

Organization

In the Macau Special Administrative Region of the People’s Republic of China (“Macau”), the Company owns approximately 72% of Wynn Macau, Limited (“WML”), which includes the operations of the Wynn Palace and Wynn Macau resorts. The Company refers to Wynn Palace and Wynn Macau as its Macau Operations.

Recent Developments Related to COVID-19

Since the outbreak of COVID-19 in early 2020, steps have been taken by various countries, including those in which the Company operates, to advise citizens to avoid non-essential travel, to restrict inbound international travel, to implement closures of non-essential operations, and to implement quarantines and lockdowns to contain the spread of the virus. As part of the immediate response to the initial outbreak of COVID-19, each of the Company’s properties was subject to partial or full closure for varying lengths of time during 2020, and each has since reopened. Several vaccines have been granted authorization in numerous countries and are being rolled out to citizens based on availability and priority of need. There can be no assurance as to when a sufficient number of individuals will be vaccinated, or when travel restrictions may be fully lifted thereafter.

Macau Operations

Visitation to Macau has fallen significantly since the outbreak of COVID-19, driven by the strong deterrent effect of the COVID-19 pandemic on travel and social activities, quarantine measures put in place in Macau and elsewhere, travel and entry restrictions and conditions in Macau, the PRC, Hong Kong and Taiwan involving COVID-19 testing, among other things, and the suspension or reduced accessibility of transportation to and from Macau. Beginning in June 2020, certain restrictions and conditions have eased to allow for some visitation to Macau as certain regions recover from the COVID-19 pandemic. Quarantine-free travel, subject to COVID-19 safeguards such as testing and the usual visa requirements, has been reintroduced between Macau and most areas and cities within the PRC, and in September 2020, PRC authorities fully resumed the IVS exit visa program, which permits individual PRC citizens from

nearly 50 PRC cities to travel to Macau for tourism purposes. Given the evolving conditions created by and in response to the COVID-19 pandemic, measures that have been lifted may be reintroduced if there are adverse developments in the COVID-19 situation in Macau and other regions with access to Macau, and the Company is currently unable to determine when protective measures and the suspension of certain offerings in effect at our Macau Operations will be lifted. Given the uncertainty around the extent and timing of the potential future spread or mitigation of COVID-19 and around the imposition or relaxation of protective measures, management cannot reasonably estimate the impact to the Company's future results of operations, cash flows, or financial condition.

Liquidity

As of September 30, 2021, the Company had total cash and cash equivalents, excluding restricted cash, of \$2.48 billion, and had access to \$834.2 million of available borrowing capacity from the WRF Revolving Facility and \$413.1 million of available borrowing capacity from the WM Cayman II Revolver (as defined and discussed further in Note 7, "Long-Term Debt"). The Company has suspended its dividend program. Given the Company's liquidity position as of September 30, 2021, the Company believes it is able to support continuing operations and respond to the current COVID-19 pandemic challenges.

Macau Gaming Concession

The term of the Company's concession agreement with the Macau government ends on June 26, 2022. If the term of this concession agreement is not extended or renewed or is not replaced by a new gaming concession, all of the Company's gaming operations and related equipment in Macau will be automatically transferred to the Macau government without compensation on that date and the Company will cease to generate gaming revenues from its Macau Operations. In addition, under the indentures governing the Company's \$4.7 billion aggregate principal amount of WML Senior Notes and the facility agreement governing the WM Cayman II Revolver, upon the occurrence of any event after which the Company does not own or manage casino or gaming areas or operate casino games of fortune and chance in Macau in substantially the same manner as of the issue date of the respective senior notes or the date of the facility agreement, for a period of 10 consecutive days or more in the case of the WML Senior Notes or a period of 30 consecutive days or more in the case of the WM Cayman II Revolver, and such event has a material adverse effect on the financial condition, business, properties or results of operations of WML and its subsidiaries, taken as a whole, holders of the WML Senior Notes can require the Company to repurchase all or any part of the WML Senior Notes at par, plus any accrued and unpaid interest (the "Special Put Option"), and any amounts owed under the WM Cayman II Revolver may become immediately due and payable (the "Property Mandatory Prepayment Event").

The Company is monitoring developments with respect to the Macau government's concession renewal or extension process, and at this time believes that its concession will be renewed or extended beyond June 26, 2022. The failure to extend or renew the Company's concession or obtain a new concession and the resulting ability of the WML Senior Note holders to exercise the Special Put Option and triggering of the Property Mandatory Prepayment Event would have a material adverse effect on the Company's business, financial condition, results of operations, and cash flows.

(1) In September 2021, the Company prepaid the aggregate amount of \$1.26 billion of borrowings outstanding under Wynn Macau Credit Facilities.

(2) The borrowings under the WM Cayman II Revolver bear interest at LIBOR or HIBOR plus a margin of 1.875% to 2.875% per annum based on WM Cayman II's leverage ratio on a consolidated basis. Approximately \$226.5 million and \$862.6 million of the WM Cayman II Revolver bears interest at a rate of LIBOR plus 2.625% per year and HIBOR plus 2.625% per year, respectively. As of September 30, 2021, the weighted average interest rate was approximately 2.69%. As of September 30, 2021, the available borrowing capacity under the WM Cayman II Revolver was \$413.1 million.

WM Cayman II Revolver

On September 16, 2021, WM Cayman Holdings Limited II, an indirect wholly owned subsidiary of WML, as borrower (“WM Cayman II”) and WML as guarantor, each an indirect subsidiary of Wynn Resorts, entered into a facility agreement with, among others, Bank of China Limited, Macau Branch as agent and a syndicate of lenders (the “Facility Agreement”), pursuant to which the lenders will make available in an aggregate amount of \$1.50 billion equivalent revolving unsecured credit facility consisting of one tranche in an amount of \$312.5 million and one tranche in an amount of HK\$9.26 billion (approximately \$1.19 billion) to WM Cayman II (the “WM Cayman II Revolver”). WM Cayman II has the ability to upsize the total WM Cayman II Revolver by an additional \$1.00 billion equivalent under the Facility Agreement and related agreements upon the satisfaction of various conditions.

The final maturity of all outstanding loans under the WM Cayman II Revolver is September 16, 2025 (or if September 16, 2025 is not a business day, the next business day in the relevant calendar month), by which time any outstanding borrowings from the WM Cayman II Revolver must be repaid.

Borrowings of \$1.09 billion under the WM Cayman II Revolver, along with \$200.0 million of cash, were used to facilitate the prepayment of the outstanding \$1.26 billion of borrowings under the Wynn Macau Credit Facilities, and to pay related fees and expenses totaling \$29.1 million, of which \$28.5 million was recorded as debt issuance costs within the Condensed Consolidated Balance Sheet. The Company recognized this transaction primarily as a modification of existing debt with the related unamortized debt issuance costs reallocated to the WM Cayman II Revolver. For those components of debt that were deemed extinguished, the Company recognized a loss on extinguishment of debt of \$0.7 million.

The Facility Agreement contains representations, warranties, covenants and events of default customary for similar financings. The Facility Agreement also contains certain mandatory prepayment provisions relating to the loss or termination of the Company’s gaming operations or concession contracts in Macau.

Note 8 — Stockholders’ Deficit

Noncontrolling Interests

The WML board of directors concluded not to recommend the payment of a dividend with respect to either of the years ended December 31, 2020 or 2019 due to the financial impact of the COVID-19 pandemic. As such, WML paid no dividends during 2020 or the nine months ended September 30, 2021.

Note 12 — Income Taxes

The Company recorded an income tax expense of \$1.2 million and \$407.4 million for the three months ended September 30, 2021 and 2020, respectively and an income tax expense of \$2.3 million and \$564.1 million for the nine months ended September 30, 2021 and 2020, respectively. The 2021 income tax expense primarily related to an increase in valuation allowance for U.S. deferred tax assets and to the Macau dividend tax agreement that provides for an annual payment of MOP 12.8 million (approximately \$1.6 million) as complementary tax otherwise due by stockholders of Wynn Macau SA.

In March 2021, the Company received an extension of its Macau dividend tax agreement, providing for a payment of MOP 12.8 million (approximately \$1.6 million) for 2021 and MOP 6.3 million (approximately \$0.8 million) for the period ending June 26, 2022, the expiration date of the gaming concession agreement.

In April 2020, Wynn Macau SA received an extension of the exemption from Macau's 12% Complementary Tax on casino gaming profits earned from January 1, 2021 to June 26, 2022, the expiration date of the gaming concession agreement.

For the three and nine months ended September 30, 2021 and 2020, the Company did not have any casino gaming profits exempt from the Macau Complementary Tax. The Company's non-gaming profits remain subject to the Macau Complementary Tax and its casino winnings remain subject to the Macau special gaming tax and other levies in accordance with its concession agreement.

In March 2021, the Financial Services Bureau concluded its review of the 2017 and 2018 Macau income tax returns of Palo with no changes.

Note 17 — Segment Information

The Company reviews the results of operations for each of its operating segments, and identifies reportable segments based upon factors such as geography, regulatory environment, and the Company's organizational and management reporting structure. Wynn Macau and Encore, an expansion at Wynn Macau, are managed as a single integrated resort and have been aggregated as one reportable segment ("Wynn Macau"). Wynn Palace is presented as a separate reportable segment and is combined with Wynn Macau for geographical presentation. Other Macau primarily represents the assets for the Company's Macau holding company.

- (1) *Includes lease revenue accounted for under lease accounting guidance.*
- (2) *“Adjusted Property EBITDA” is net loss before interest, income taxes, depreciation and amortization, pre-opening expenses, property charges and other, management and license fees, corporate expenses and other (including intercompany golf course, meeting and convention, and water rights leases), stock-based compensation, change in derivatives fair value, loss on extinguishment of debt, and other non-operating income and expenses. Adjusted Property EBITDA is presented exclusively as a supplemental disclosure because management believes that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses Adjusted Property EBITDA as a measure of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors, as well as a basis for determining certain incentive compensation. We also present Adjusted Property EBITDA because it is used by some investors to measure a company’s ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDA as a supplement to GAAP. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including us, have historically excluded from their EBITDA calculations preopening expenses, property charges, corporate expenses and stock-based compensation, that do not relate to the management of specific casino properties. However, Adjusted Property EBITDA should not be considered as an alternative to operating income as an indicator of our performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure determined in accordance with GAAP. Unlike net income, Adjusted Property EBITDA does not include depreciation or interest expense and therefore does not reflect current or future capital expenditures or the cost of capital. We have significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, income taxes and other non-recurring charges, which are not reflected in Adjusted Property EBITDA. Also, our calculation of Adjusted Property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited.*

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a designer, developer, and operator of integrated resorts featuring luxury hotel rooms, high-end retail space, an array of dining and entertainment options, meeting and convention facilities, and gaming, all supported by an unparalleled focus on our guests, our people, and our community. Through our approximately 72% ownership of Wynn Macau, Limited (“WML”), we operate two integrated resorts in the Macau Special Administrative Region of the People’s Republic of China (“Macau”), Wynn Palace and Wynn Macau (collectively, our “Macau Operations”).

Recent Developments Related to COVID-19

Macau Operations

Visitation to Macau has fallen significantly since the outbreak of COVID-19, driven by the strong deterrent effect of the COVID-19 pandemic on travel and social activities, quarantine measures put in place in Macau and elsewhere, travel and entry restrictions and conditions in Macau, the PRC, Hong Kong and Taiwan involving COVID-19 testing, among other things, and the suspension or reduced accessibility of transportation to and from Macau. Beginning in June 2020, certain restrictions and conditions have eased to allow for visitation to Macau as certain regions recover from the COVID-19 pandemic. Quarantine-free travel, subject to COVID-19 safeguards such as testing and the usual visa requirements, has been reintroduced between Macau and most areas and cities within the PRC, and in September 2020, PRC authorities fully resumed the IVS exit visa program, which permits individual PRC citizens from nearly 50 PRC cities to travel to Macau for tourism purposes. Total visitation from PRC to Macau increased meaningfully in the nine months ended September 30, 2021 compared to the same period in 2020. Total visitation decreased 75.6% compared to the same period in 2019. Given the evolving conditions created by and in response to the COVID-19 pandemic, measures that have been lifted may be reintroduced if there are adverse developments in the COVID-19 situation in Macau and other regions with access to Macau, and the Company is currently unable to determine when protective measures and the suspension of certain offerings in effect at our Macau Operations will be lifted. Given the uncertainty around the extent and timing of the potential future spread or mitigation of COVID-19 and around the imposition or relaxation of protective measures, management cannot reasonably estimate the impact to the Company’s future results of operations, cash flows, or financial condition.

Macau Gaming Concession

The term of the Company's concession agreement with the Macau government ends on June 26, 2022. If the term of this concession agreement is not extended or renewed or is not replaced by a new gaming concession, all of the Company's gaming operations and related equipment in Macau will be automatically transferred to the Macau government without compensation on that date and the Company will cease to generate gaming revenues from its Macau Operations. In addition, under the indentures governing the Company's \$4.7 billion aggregate principal amount of WML Senior Notes and the facility agreement governing the WM Cayman II Revolver, upon the occurrence of any event after which the Company does not own or manage casino or gaming areas or operate casino games of fortune and chance in Macau in substantially the same manner as of the issue date of the respective senior notes or the date of the facility agreement, for a period of 10 consecutive days or more in the case of the WML Senior Notes or a period of 30 consecutive days or more in the case of the WM Cayman II Revolver, and such event has a material adverse effect on the financial condition, business, properties or results of operations of WML and its subsidiaries, taken as a whole, holders of the WML Senior Notes can require the Company to repurchase all or any part of the WML Senior Notes at par, plus any accrued and unpaid interest (the "Special Put Option"), and any amounts owed under the WM Cayman II Revolver may become immediately due and payable (the "Property Mandatory Prepayment Event").

The Company is monitoring developments with respect to the Macau government's concession renewal or extension process, and at this time believes that its concession will be renewed or extended beyond June 26, 2022. The failure to extend or renew the Company's concession or obtain a new concession and the resulting ability of the WML Senior Note holders to exercise the Special Put Option and triggering of the Property Mandatory Prepayment Event would have a material adverse effect on the Company's business, financial condition, results of operations, and cash flows.

Key Operating Measures

Certain key operating measures specific to the gaming industry are included in our discussion of our operational performance for the periods for which the Condensed Consolidated Statements of Operations are presented. These key operating measures are presented as supplemental disclosures because management and/or certain investors use these measures to better understand period-over-period fluctuations in our casino and hotel operating revenues. These key operating measures are defined below:

- Table drop in mass market for our Macau Operations is the amount of cash that is deposited in a gaming table's drop box plus cash chips purchased at the casino cage.*
- Rolling chips are non-negotiable identifiable chips that are used to track turnover for purposes of calculating incentives within our Macau Operations' VIP program.*
- Turnover is the sum of all losing rolling chip wagers within our Macau Operations' VIP program.*

- *Table games win is the amount of table drop or turnover that is retained and recorded as casino revenues. Table games win is before discounts, commissions and the allocation of casino revenues to rooms, food and beverage and other revenues for services provided to casino customers on a complimentary basis. Table games win does not include poker rake.*
- *Slot machine win is the amount of handle (representing the total amount wagered) that is retained by us and is recorded as casino revenues. Slot machine win is after adjustment for progressive accruals and free play, but before discounts and the allocation of casino revenues to rooms, food and beverage and other revenues for services provided to casino customers on a complimentary basis.*
- *Poker rake is the portion of cash wagered by patrons in our poker rooms that is retained by the casino as a service fee, after adjustment for progressive accruals, but before the allocation of casino revenues to rooms, food and beverage and other revenues for services provided to casino customers on a complimentary basis. Poker tables are not included in our measure of average number of table games.*
- *Average daily rate (“ADR”) is calculated by dividing total room revenues, including complimentary (less service charges, if any), by total rooms occupied.*
- *Revenue per available room (“REVPAR”) is calculated by dividing total room revenues, including complimentary (less service charges, if any), by total rooms available.*
- *Occupancy is calculated by dividing total occupied rooms, including complimentary rooms, by the total rooms available.*

Below is a discussion of the methodologies used to calculate win percentages at our resorts.

In our VIP operations in Macau, customers primarily purchase rolling chips from the casino cage and can only use them to make wagers. Winning wagers are paid in cash chips. The loss of the rolling chips in the VIP operations is recorded as turnover and provides a base for calculating VIP win percentage. It is customary in Macau to measure VIP play using this rolling chip method. We expect our win as a percentage of turnover from these operations to be within the range of 2.7% to 3.0%.

In our mass market operations in Macau, customers may purchase cash chips at either the gaming tables or at the casino cage. The measurements from our VIP and mass market operations are not comparable as the measurement method used in our mass market operations tracks the initial purchase of chips at the table and at the casino cage, while the measurement method from our VIP operations tracks the sum of all losing wagers. Accordingly, the base measurement from the VIP operations is much larger than the base measurement from the mass market operations. As a result, the expected win percentage with the same amount of gaming win is lower in the VIP operations when compared to the mass market operations.

Results of Operations

Summary of third quarter 2021 results

The increase in operating revenues for the three months ended September 30, 2021 was primarily driven by increases of \$165.6 million, \$79.3 million, \$289.3 million, and \$75.5 million from Wynn Palace, Wynn Macau, our Las Vegas Operations, and Encore Boston Harbor, respectively, as a result of increased gaming volumes across our properties as well as an increase in hotel occupancy at our Las Vegas Operations.

The increase in Adjusted Property EBITDA for the three months ended September 30, 2021 was primarily driven by increased operating revenues at our integrated resort properties. Adjusted Property EBITDA increased \$89.8 million, \$32.5 million, \$163.2 million, and \$38.6 million at Wynn Palace, Wynn Macau, our Las Vegas Operations, and Encore Boston Harbor, respectively, and decreased \$103.6 million at Corporate and other. In addition, Adjusted Property EBITDA for the third quarter of 2021 includes the reversal of \$8.6 million and \$8.1 million of previously accrued operating expenses at Wynn Palace and Wynn Macau, respectively, recorded in relation to a change in estimate.

Room revenues increased \$112.7 million, primarily due to higher occupancy at our Las Vegas Operations, our Macau Operations and Encore Boston Harbor.

Food and beverage revenues increased \$140.9 million, primarily driven by increased covers at our Las Vegas Operations and our Macau Operations.

Entertainment, retail and other revenues increased \$76.2 million, primarily due to an increase in visitation at our Las Vegas Operations and our Macau Operations.

Operating expenses

Casino expenses increased \$69.7 million, \$39.3 million, \$20.0 million, and \$25.4 million at Wynn Palace, Wynn Macau, our Las Vegas Operations, and Encore Boston Harbor, respectively. These increases were primarily due to increased gaming tax expense driven by the increase in casino revenues at each property.

Room expenses increased \$13.5 million and \$2.2 million at our Las Vegas Operations and Wynn Palace. These increases were primarily a result of higher operating costs related to the increase in occupancy.

General and administrative expenses increased primarily due to increases of \$7.5 million, \$6.1 million, \$5.4 million, and \$5.3 million at Wynn Palace, Wynn Macau, our Las Vegas Operations, and Encore Boston Harbor, respectively. These increases were primarily attributable to increased payroll, operating costs, and general and administrative expenses.

Provision for credit losses decreased \$8.8 million and \$3.1 million at Wynn Palace and our Las Vegas Operations, respectively. The decreases were primarily due to the impact of historical collection patterns and expectations of current and future collection trends, as well as the specific review of customer accounts, on our estimated credit loss for the respective periods.

Other non-operating income and expenses

We incurred a foreign currency remeasurement loss of \$11.8 million and a gain of \$0.4 million for the three months ended September 30, 2021 and 2020, respectively. The impact of the exchange rate fluctuation of the Macau pataca, in relation to the U.S. dollar, on the remeasurements of U.S. dollar denominated debt and other obligations from our Macau-related entities drove the variability between periods.

We recorded a \$0.7 million loss on extinguishment of debt for the three months ended September 30, 2021 related to the prepayment of the Wynn Macau Credit Facilities. We recorded a \$3.1 million loss on extinguishment of debt for the three months ended September 30, 2020 related to the partial prepayment of the Wynn Macau Term Loan.

Income taxes

We recorded an income tax expense of \$1.2 million and \$407.4 million for the three months ended September 30, 2021 and 2020, respectively. The 2021 income tax expense primarily related to an increase in valuation allowance for U.S. deferred tax assets and the Macau dividend tax agreement that provides for an annual payment of MOP 12.8 million (approximately \$1.6 million) as complementary tax otherwise due by stockholders of Wynn Macau SA.

Net loss attributable to noncontrolling interests

Net loss attributable to noncontrolling interests was \$79.7 million and \$73.4 million for the three months ended September 30, 2021 and 2020, respectively. These amounts are primarily related to the noncontrolling interests' share of net loss from WML.

Financial results for the nine months ended September 30, 2021 compared to the nine months ended September 30, 2020.

Liquidity and Capital Resources

Operating Activities

During the nine months ended September 30, 2021, the decrease in net cash used in operating activities was primarily due to increased operating revenues, partially offset by an increase in operating expenses and changes in working capital accounts. During the nine months ended September 30, 2020, the decrease in net cash provided by operations was primarily due to the adverse effects of the COVID-19 pandemic on the results of our operations.

In addition, we made quarterly amortization payments under the WRF Term Loan totaling \$37.5 million.

Capital Resources

The COVID-19 pandemic has impacted and will continue to impact, materially, our business, financial condition and results of operations. While we believe our strong liquidity position will enable us to fund our current obligations for the foreseeable future, COVID-19 has resulted in significant disruption, which has had and will continue to have a negative impact on our operating income and could have a negative impact on our ability to access capital in the future. We continue to monitor the rapidly evolving situation and guidance from international and domestic authorities.

The following table summarizes our unrestricted cash and cash equivalents and available revolver borrowing capacity under the Company as of September 30, 2021 (in thousands):

	Total Cash and Cash Equivalents	Revolver Borrowing Capacity
Wynn Resorts (Macau) S.A. and subsidiaries	\$184,546	\$—
Wynn Macau, Limited and subsidiaries ⁽¹⁾	1,203,074	413,130

(1) Excluding Wynn Resorts (Macau) S.A. and subsidiaries.

Wynn Resorts (Macau) S.A. and subsidiaries. Wynn Resorts (Macau) S.A. (“Wynn Macau SA”) generates cash from our Macau Operations and may utilize proceeds from the WM Cayman II Revolver (discussed further below) to fund short term working capital requirements as needed. We expect to use this cash to fund working capital and capital expenditure requirements at our Macau Operations. In addition, we may use this cash to make distributions to WML.

In January 2021, Wynn Macau SA prepaid approximately \$412.5 million of the term loan outstanding under the Wynn Macau Credit Facilities using proceeds from WML senior notes issuances.

In September 2021, borrowings of \$1.09 billion under the WM Cayman II Revolver, along with \$200.0 million of cash, were used to facilitate the prepayment of the outstanding \$1.26 billion of borrowings under the Wynn Macau Credit Facilities and to pay related fees and expenses.

The Company is currently designing the second phase of Wynn Palace. We do not expect to incur significant capital expenditures related to the construction of this project in 2021.

Wynn Macau, Limited and subsidiaries. Wynn Macau, Limited primarily generates cash through distributions from Wynn Macau SA and utilizes available borrowing capacity under the WM Cayman II Revolver as needed. We expect to use this cash to service our existing WML Senior Notes, pay dividends to shareholders of WML (of which we own approximately 72%), and fund working capital requirements at WML.

On September 16, 2021, WM Cayman Holdings Limited II (“WM Cayman II”), an indirect wholly owned subsidiary of WML, entered into an unsecured revolving credit facility agreement (the “Facility Agreement”) in an aggregate principal amount of \$1.50 billion consisting of one tranche in an amount of \$312.5 million and one tranche in an amount of HK\$9.26 billion (approximately \$1.19 billion). WM Cayman II has the ability to upsize the total revolving credit facility by an additional \$1.00 billion equivalent under the Facility Agreement and related agreements upon the satisfaction of various conditions.

The borrowings under the WM Cayman II Revolver bear interest at LIBOR or HIBOR plus a margin of 1.875% to 2.875% per annum based on WM Cayman II’s leverage ratio on a consolidated basis. The final maturity of all outstanding loans under the Revolving Facility is September 16, 2025.

WML paid no dividends during 2020 or the nine months ended September 30, 2021. The WML board of directors will be continuously monitoring the situation and market conditions in Macau and Greater China and may consider a special dividend in the future when such conditions have stabilized.

If our portion of our cash and cash equivalents were repatriated to the U.S. on September 30, 2021, it would be subject to minimal U.S. taxes in the year of repatriation.

Other Factors Affecting Liquidity

We may refinance all or a portion of our indebtedness on or before maturity. We cannot assure you that we will be able to refinance any of the indebtedness on acceptable terms or at all.

Legal proceedings in which we are involved also may impact our liquidity. No assurance can be provided as to the outcome of such proceedings.

New business developments or other unforeseen events, including related to COVID-19, may occur, resulting in the need to raise additional funds. We continue to explore opportunities to develop additional gaming or related businesses in domestic and international markets. There can be no assurances regarding the business prospects with respect to any other opportunity. Any new development may require us to obtain additional financing. We may decide to conduct any such development through Wynn Resorts, Limited or through subsidiaries separate from the Las Vegas, Boston or Macau-related entities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risks

We expect most of the revenues and expenses for any casino that we operate in Macau will be denominated in Hong Kong dollars or Macau patacas; however, a significant portion of our Wynn Macau, Limited debt is denominated in U.S. dollars. Fluctuations in the exchange rates resulting in weakening of the Macau pataca or the Hong Kong dollar in relation to the U.S. dollar could have materially adverse effects on our results, financial condition and ability to service debt. Based on our balances as of September 30, 2021, an assumed 1% change in the U.S. dollar/Hong Kong dollar exchange rate would cause a foreign currency transaction gain/loss of \$37.7 million.”
